Modifying the LiveCycle Submit Button, Example

How it Works

*- Required Fields		
	O	
		* The Distribution List addresses will be added to the Blind CC (BCC). The email address is the export export value of the list item.
		* The customer's email address will be added to the regular CC, if "Send a copy to the customer" is selected.
		* All Code is placed in the example buttons below.
Example #1: Single Button Solution		Example #2: Two Button Solution
